

INCIDENT MANAGEMENT SITUATION REPORT
 MONDAY JULY 14, 1997 - 0530 MDT
 NATIONAL PREPAREDNESS LEVEL II

CURRENT SITUATION: Most Geographic Areas reported minimal fire activity. Units throughout the southern portion of the western United States continue to experience high to extreme fire dangers.

ALASKA LARGE FIRES:

INOWAK, Southwest Area Forestry, Alaska State. A Type II Incident Management Team (Kechter) is assigned. Active fire behavior was observed along the southern perimeter. Winds have pushed the fire within 7 miles of Red Devil and 2 miles of Stony River. Relative humidities in the 40's and strong winds continue to hamper containment efforts.

CAMP LAKE, Tok Area Forestry, Alaska State. This fire is between Tok and North way. The north and northwest sides of the fire made significant up-slope runs yester day. Crews continue to secure and mop-up the south and east flanks.

BUTTE CREEK, Fairbanks Area Forestry, Alaska State. The fire received rain yesterday. Cabins and homes 1.2 miles from the fire remain threatened.

INCIDENT	UNIT	ST	SIZE	%	EST	TOTAL	CRW	ENG	HELI	STRC	EST	\$\$\$
				CTN	CTN	PERS				LOST	LOSS	C-T-D
INOWAK	SWS	AK	213,300	0	UNK	94	5	0	2	3	UNK	256K
CAMP LAKE	TAS	AK	3,000	95	UNK	94	5	0	1	0	UNK	UNK
BUTTE CREEK	FAS	AK	3,350	0	UNK	18	1	0	1	0	UNK	UNK

Alaska has 45 other large fires burning for a total of 927,325 acres.

OUTLOOK:

Alaska will be partly cloudy in the southern and western interior. Mostly cloudy skies with light rain is likely for the central and eastern interior. The west coast will be mostly cloudy. Temperatures will range from the 50's along the coast to the 60's and 70's in the interior.

California will be sunny and hot. The coastal areas will be cooler with patchy fog and low clouds. Isolated afternoon thunderstorms are forecast over the Sierra crest, south of Lake Tahoe. Temperatures will be in the 60's and 70's along the coast, the 70's and 80's in the mountains, and the 90's and 100's in the valleys and deserts.

Nevada will be sunny and warm. A slight chance of afternoon thunderstorms exists over the Sierra Nevada and the southern Nevada mountains. High temperatures will range from 75 to 110 in the southern deserts.

Colorado will be mostly sunny and warmer. Isolated thunderstorms are possible in the mountains. Temperatures will range from the 70's through the 90's.

Arizona and New Mexico will be mostly sunny and hot, with a slight chance of mountain thunderstorms. Mountain temperatures will be in the mid 80's, with highs reaching 115 in the Arizona deserts.
